

WASINJESU OSOKO

Full Stack Developer

<https://unique-porfolio.vercel.app>

PROFESSIONAL SUMMARY

Full Stack Developer specializing in building and shipping scalable, production-grade web applications using TypeScript, React, React Native, Expo, Next.js, Node.js (Express.js, Fastify), C# ASP.NET, Supabase, Prisma, Entity Framework Core, and PostgreSQL. Proven ability to deliver end-to-end features, from product ideation to deployment with a strong focus on performance, clean architecture, and rapid iteration. Highly experienced in AI-assisted development workflows (GitHub Copilot, Google Antigravity, Claude, Perplexity and others), enabling faster delivery cycles without compromising code quality. Known for ownership, adaptability, and strong collaboration across cross-functional teams.

CORE SKILLS

Frontend:	React, Next.js, TypeScript, TailwindCSS, React Native
Backend:	C# ASP.NET, Entity Framework Core, Node.js, Express.js, Fastify
Database:	PostgreSQL, Supabase, Prisma ORM
Tools & Platforms:	Git, Vercel, Railway, Render, REST APIs, Expo, Swagger UI
AI Workflow:	GitHub Copilot, Google Antigravity, Claude, Perplexity and others

SOFT SKILLS

- Strong ownership mindset with end-to-end feature delivery
- Effective team collaboration and cross-functional communication
- High adaptability in fast-paced and evolving environments
- Continuous learning and rapid skill acquisition
- Problem-solving and analytical thinking

PROFESSIONAL EXPERIENCE

Frontend Engineer ProptiBaank	Jan 2026 - Present
• Delivered scalable UI systems improving usability and performance • Collaborated with backend teams to integrate APIs and real estate transaction flows • Resolved critical network request failures and TypeScript issues across the codebase • Contributed to mobile and desktop UI restructuring for better responsiveness • Maintained clean, maintainable, and scalable frontend architecture	

PROJECTS

Portfolio Platform

- Built a modern developer portfolio showcasing full-stack projects and technical depth
- Implemented responsive design and optimized performance for fast load times

Full Stack Applications

- Developed multiple production-ready applications with authentication, dashboards, and API integrations
- Implemented RESTful APIs and database structures using Supabase and PostgreSQL
- Applied Prisma ORM for efficient database management

EDUCATION

B.Sc. Computer Science Bamidele Olumilua University Of Education Science and Technology, Nigeria

- Ongoing technical training and continuous self-development in software engineering

ADDITIONAL STRENGTHS

- Strong understanding of modern full-stack architecture
- Experience working independently and delivering features without supervision
- Ability to translate product requirements into scalable technical solutions
- Focus on shipping fast, iterating quickly, and delivering real-world value
